## DEDICATION

THE CLASS OF 1951,

DEDICATES

THIS, OUR ANNUAL,

TO

OUR PARENTS

All through our lives you have been our beacon shining in the darkness. You have fed us when we were hungry, cared for us when we were sick, and comforted us when we were disappointed or sad. You, our parents, have been our companions and our guides. Your honest devotion and high ideals will continue to be our inspiration in the future as they have been in the past. Our love for you will always remain in our hearts.

### PRINCIPAL'S MESSAGE

I feel very close to this class of '51. We set sail on our voyage here in the Beaufort School the same year, and we have experienced many up's and down's in the twelve years that we have sailed together. It has been a pleasant voyage even though the sea has appeared rough and restless at times. I learned early in our voyage that you had faith, courage, and determination to follow the course chartered by the class. You have been good sailors and have manned the ship well and now we are nearing the port of embarkation. You will leave the old ship soon, and you will charter a new course that leads to economic stability and happiness. I trust that this voyage will be a pleasant one, however, the familiar faces will be gone and you will wish many times to be with the old crew again to reminisce and share once again the happiness and pleasures of the first voyage. These memories will linger with you always, and become treasured and honored, as the years go by. As for me, it has been just another trip, but it will go down in the ship's log as the longest voyage I have ever made with the same crew. I will be sailing again soon with another crew on another voyage, but I will be looking in every port for the old crew to visit the ship again.

#### CLASS HISTORY

Four short years ago seventy-nine of us young, carefree, and inexperienced boys and girls entered Beaufort High School. How we rambled from class to class always getting in the wrong place and how the upper classmen played prank after prank on us will always be remembered.

However after getting accustomed to the high school routine, we settled down and chose Billy Downum as our leader. Under his leadership we soon became active in extra-curricular activities. But as all good (?) things, the year was soon ended and we gloomily (?) left for a few months of vacation.

After three months of much needed rest, we were eager to start our year as "Lordly Sophs." Our first week was spent trying to show those oh-so-young-and-silly freshmen just how "lordly" we were. We soon tired of this, luckily for us, and buckled down to work. Here we began to excel in sports, glee club, and other activities. We even gave the seniors a hayride. All this was done under the leader-ship of our own "Juncy" Piver.

Our Junior year, filled with the happy and memorable events that always make one feel important, was the most exciting of all. We gave the seniors an "Underwater Scene" Banquet which was a huge success.

Finally our big moment arrived. We had reached the goal of which we had dreamed. We were nothing less than High and Mighty Seniors. We set examples for the lower classmen, reaped the benefits of Senior privileges, and were given the responsibility of editing the annual.

And now our work here is nearly through. Here we have learned English, Math, French, and many other subjects -but that is not all. We have formed lasting friendships, developed our characters, and performed faithfully each task that has been assigned to us. Now we must follow that well-worn path out into life and seek our destination. What ever we accomplish we feel we owe to the excellent guidance of our dear Alma Mater.

#### PROPHECY OF CLASS OF '51

Since I was graduated with the class of '51 from 'dear ole B. H. S., 'I have not seen any of my classmates.

Ten years have elapsed and the only news of my old friends has been through letters.

Tommy Davis has passed on some interesting items about those people with whom we spent so many happy years. Clyde Owens is the Coach for the State College football team, which has been undefeated for five years. Being the modest dear that Tommy is, he did not even mention that he is now the President of the Home Security Life Insurance Company.

I learned that a vacancy was left in Raleigh High School when their Principal, Mr. Albert Small, married his secretary, Jean Ball, in a double ceremony with Peggy Piver and Tom Wade. Immediately following Mr. and Mrs. Small's resignation, Mr. Bryan Loftin was appointed Principal, and Bernise Griffin secretary.

Julian Piver used to say he would just be an educated burn when he finally graduated! I should have known better, but I was not at all surprised to learn that he is now a quarter back for the University of North Carolina.

I was happy to learn that Patsy Mason, president of the Wild Life Club, featured as her main attraction last week the internationally known ukulele player, Betsy Fulford.

Anna Lou Laughton certainly fooled me! I thought that Anna Lou, since she was the prettiest girl in our class, would go to Hollywood for a movie career. However, she is now married and has two sets of twins.

Elizabeth Bell features the sweetest music this side of heaven on her "Music Parlor" every Friday night. Last week she presented one of the most famous crooners of the day--our own Bonzell Lewis. Elizabeth tells me that Shirley Lipman is now a model in "Esquire Fashion", an exclusive bathing suit shop under the proprietorship of Letty Eudy.

Joyce Garner is the owner of the "Sea-Dog" Beauty Shop, at which Miss Christine Hansen is a weekly visitor. This is necessary to keep her blond hair blond. It seems that Miss Hansen is touring the country giving her famous talk on, "How to Keep That School-girl Look."

In high school, Lavenia Mason never could decide on which boy she liked the best. It looks like she is still having that trouble. She has established an Old Maid's Home and broadcasts daily over W. C. K. Y. in Cincinnati, Ohio, her talk, on, "How to Get Your Man in Three Easy Lessons."

Rozella Smith has been coach of the basketball team of Beaufort High School for three years. Each year the team has won the State Championship Trophy.

Last week Marie Cannon and Morgan White, two most famous comedians, appeared in person at the Beaufort Theater, which is owned by Mark Eubanks.

Gordon Hardesty Jr. is the successful owner of the former Robert L. Rose Motor Company, where nothing but Chevrolet cars and trucks are sold.

Billy Downum is a boy we could always depend on. He graduated with honors from Wake Forest College six years ago, and is now a minister in Goldsboro, North Carolina.

I tuned in on the "Our Best To You" program in Raleigh, and heard Louis Noe and his fifty-piece orchestra. The American audience says that this is the best orchestra in the United States. The only difference between his and Tommy Dorsey's is that Louis's band included two girls--Carolyn Gaskill, pianist, and Faye Brooks, soloist.

Alice Dudley always said she wanted to be secretary to the President of the United States. She saw her dream

come true when Vincent Wright was inaugurated President on January third, in Washington, D. C.

Margaret Lewis is head telephone operator in California. It is rumored that the bachelor, Joe Goodwin, sits constantly using the phone in hopes that he will hear her voice. He has recently finished a book entitled, "Advice to the Bashful Boy.

The Kur-em--Ur-Kill-em Hospital located in Beaufort, North Carolina is overflowing this year with goodlooking male patients. Dr. Ivey Mason, brain specialist, believes that the crowded conditions are due to the nursing staff, consisting of Patsy Warren, Head Advisor; Dorothy Wallace, assistant advisor; and Genevieve Simpson, head nurse. Dr. Mason is afraid the hospital's popularity will not last long, as one nurse is already married, and the other two engaged.

It seems that Janice Willis is at the American Embassy in Peiping, China serving as private secretary to the Brigadier General, Arthur Stafford.

I just heard that the title of "Miss Fashion of '61" has been bestowed upon Janet Davis. She has been asked to go to New York to be in charge of a designing School.

The two eminent scientists, Rudolph Rhue and Maxton Tosto, have returned from their trip to Pluto. They made many friends and intend to go back in a few months. Both men are bachelors, but since their trip it is rumored they have 'prospects'. What other reason would they have for going that far again?

The \$75,000.00 Model Home, located in Beaufort designed by the architect, Thomas Iverson, has been bought by Stewart Hill as his eighth wedding anniversary present for his wife, the former Jane Basden.

Virginia Saunders is the stenographer for Mr. I. W. Davis Jr. who is now Sheriff of Carteret County.

Oh yes, I almost forgot Carroll Ann Willis! I must admit I was surprised at her not becoming a champion tennis player--which she easily could have been. Now she is one of the prettiest matrons you'll see.

And so this ends my account of the goals accomplished by the class of '51. I think our class did pretty well for itself. We caused much worry on the part of the faculty, but we really didn't mean to. We can truly say that we enjoyed our years at B. H. S. We were a happy crowd and still are.

This marks the passing of a decade, ten years of golden memories. Memories that each of us will cherish for the rest of our lives.

It was near the end of summer when the boys trudged out on the football field. Clad in swimming trunks and tee shirts they passed, kicked, and ran from midevening to dark under the watchful eye of Coach McQuaid.

As the weather grew cooler and the night of the first game grew nearer the boys worked with greater determination to have a winning team.

The team went on to win some games, to tie some, and to lose a few, but all this just gave the boys the experience and the spirit to go on and build for the seasons to come.

#### THE BEAUFORT SCHOOL LUNCHROOM

"Preparing and serving food for growing children is a tremendous and time consuming responsibility which requires trained and experienced personnel, "says Mrs. Hazel Chadwick, manager of the Beaufort School Lunch-

Reports show that the average daily number of lunches served is three hundred seventy eight, and that 44% of the children attending school eat in the lunchroom.

The lunchroom which participates in the National Lunch Program has been termed "education's newest classroom." Everything that happens to a child while on the school premises should contribute to his growth and development.

As in any other classroom, all facilities must be used properly if the fullest service is rendered. It is up to each of us to co-operate in taking care of our lunchroom and thus show our appreciation for the advantages it offers. We are glad to have a hot nourishing meal each day and we want to thank Mrs. Chadwick, Mrs. Leary, Blanche, and Carrie for the excellent job they are doing.

# THE SCIENCE LAB

Because of the lack of equipment the science lab has not been used much in the last few years. This year, however, approximately one hundred thirty dollars worth of equipment has been purchased. Now that we have this new equipment the science courses will be more interesting and more valuable for we shall be able to spend about two hours a week in the lab. To enter college at least one year of science is required, preferably biology. So plan now to take science next year.

#### LIBRARY

Drama, fiction, biographies or history--you will find all in the library which is perhaps the most popular room in the Beaufort High School.

In addition to the exciting novels which have been collected in the past year, many other wonderful books have been added for information in theme writing, stories, and reports. Besides a variety of books there is also a large assortment of magazines. These magazines are enjoyed by everyone and are informative as well as picturesque.

The library provides good reading for all groups in school.

COMMERCIAL DEPARTMENT Under the direction of Mrs. Travis Ainsworth, Beaufort High School has developed a two-year commercial course consisting of shorthand, bookkeeping, and typing. The requirements for a certificate are the ability to type at the rate of forty-five words per minute, the ability to take shorthand at one hundred words per minute with swift and accurate transcription, and a thorough knowledge of double entry bookkeeping which includes a complete clerical filing course. Although the class originally numbered sixteen only six have remained to complete the course. These six are Jane Basden, Alice Dudley Bernise Griffen, Peggy Piver, Jean Taylor, and Dorothy Wallace. We hope that these girls will be as successful in business as they have been in high school.

PIANO CLASS Our piano class, under the direction of Mr. Yotes, is not limited to any specific grades but is open to any student sufficiently interested in learning to play. At present fifty pupils are enrolled. The pupils have given three afternoon recitals attended by the parents of those participating. In the spring there will be an evening recital to which the public will be invited.
