Sixth Grade

Sixth grade is the first year for students at Broad Creek. Although some students transfer from all over the world, most students come to sixth grade from Bogue Sound or White Oak Elementary Schools. Students make a big step when they enter sixth grade, but the teachers on the Marlin and Sailfish teams are great at helping them adjust to life as a middle schooler. Sixth-graders get a firm foundation to prepare them for seventh and eighth grade.

Seventh Grade

Seventh grade is the time when students really begin to find themselves. Opportunities like school athletics are now an option, and a year's experience in the school moves the seventh grade students up a rung from the bottom of

the totem pole. This middle grade in middle school is usually the time of greatest growth for students - many of whom pass the milestone of finally becoming a teenager. The teachers on the Sunfish and Emperor Fish teams are experts at dealing with this crazy time in a student's life. They offer guidance and

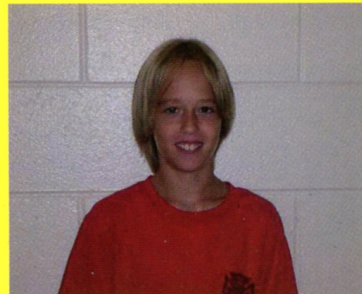

encouragement as students work through some awkward times in their development. They are master teachers that really know how to bring out the best in the Broad Creek Bulldogs.

Eighth Grade

Eighth grade is the final year of middle school at Broad Creek. Eighth grade students are finally the big fish! Many students go on to become leaders in the school and on athletic teams. Some students even have the opportunity to

begin high school level courses with the study of Algebra. The Bluefin and Barracuda teachers really focus on getting students ready for the next big step into high school.
